Smart Lighting Control

Capacitive Touch

LIGHTING CONTROL

Capacitive touch, glass control plate, based on technology gained in the smart phone market. White LED buttons can be configured for any function with Hamilton designer software. Controllers will fit into any single wall box (BS4662) with a minimum depth of 35mm.

- 4-16 capacitive touch switches with white LED
- Engraved legends
- 4 scene selection
- Dim up and down/Power off
- Available in various colours
- Available in a selection of frame styles
QUICK AND SIMPLE TO USE

Store scenes at a touch:

1. Adjust the lighting levels by touching the plate. A brief touch will turn the lights on/off, a prolonged press will raise/lower the light level.
2. Once you've selected the desired light level for all four circuits, touch and hold scene one. The LED will flash five times. Keep your finger on the scene until the LED stops flashing.
3. Your new scene is now stored. Repeat above to store further scenes 2,3 and 4. No commissioning work is required.

INSTALLATION

For connection of additional controls use CAT5/6 cable wired in parallel. Note: if other dimmer packs are included within the same system, link all with CAT5/6 cable.

V+ | CH | CL | V-

Master Wall Plate   Slave Wall Plate

You can also add additional wall plates.

To recall a scene press any Scene button, 1-4. The LED will go bright. To turn off simply press any of the scene buttons that are brightly lit. To change scene see notes above - Store scenes
